

LUXURY FLOOR COVERINGS

FOR GYM SPACES

P A R A G O N
S T U D I O 

Introducing our exclusive performance Rug Collection, designed to bring sophistication, durability, and functionality to elite gym spaces.

Inspired by our clients, this product allows Interior Designers and homeowners to specify their preferred timber floors in their gym spaces – providing a seamless and customisable alternative for loose laid rubber floor tiles required to protect the wood in the freeweights area.

The collection features rugs crafted from Polypropylene (PP) yarn, known for its exceptional resilience and easy to maintain nature. Developed in a range of refined hues including brown, charcoal and blue and constructed in a high performance loop pile texture that adds elegance to any gym.

Rugs can be specified in any shape or size, and a 2mm non-slip layer is provided underneath for extra security.
